

Maximius

EQUIPMENTS

One stop shop for Bulk Handling Equipments & Industrial Solutions

Website : www.maximius.in
www.maximiusequipments.in

Our collaborations :

This is to introduce ourselves as the supplier & Manufacturer's of all range of Bulk Material Handling Equipments of various International brands with extreme quality with reasonable pricing and working with Named industries in all over South India .Our strong network with various International brands is our strength which enables us to supply equipments for any kind of applications.

We proudly say that we are the supplier & Manufacturer's of Extreme quality Branded products since 2012.

SCREW CONVEYORS & SCREW FEEDERS

HORIZONTAL SCREW CONVEYORS

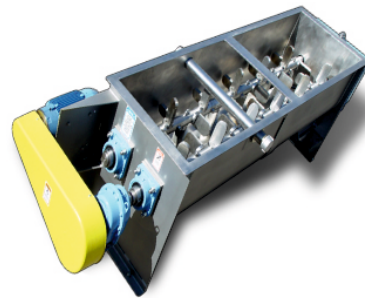

VERTICAL SCREW CONVEYOR

INCLINED SCREW CONVEYOR

PUGG MILL/SCREW COLLER

SCREW MIXERS

AVAILABLE TYPES IN SCREW CONVEYORS

- Special Applications like Ribbon flight conveyors, paddle mixers, S.S screw conveyors, shaft less spiral conveyors.
- Inclined screw conveyors, vertical screw conveyors, screw samplers.
- Ash or dust Conditioning Systems / Pug Mills.
- Conveyors up to 10m span without hanger bearings.
- High Temperature bed ash screws up to 600°C. Screw Coolers for cooling of materials from 600°C to 150°C.

DEWATERING EQUIPMENT:

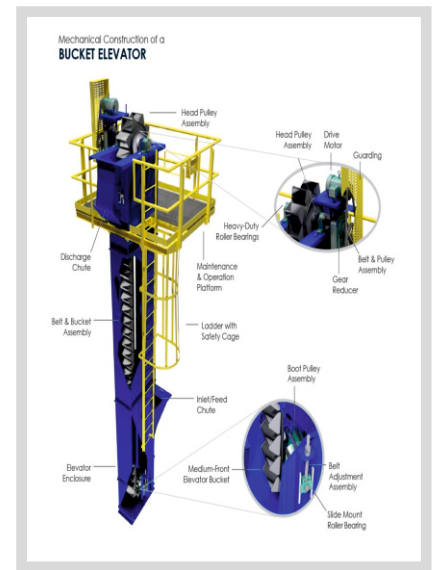

MICRO DOSING UNIT

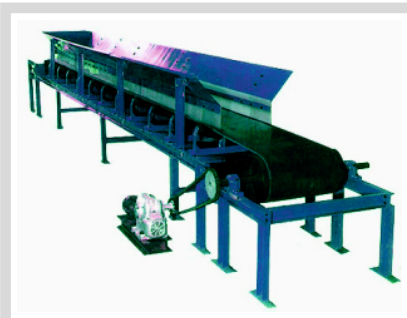

BUCKET ELEVATORS:

- Belt Bucket Elevator
 - Chain Bucket Elevator
- For Both Centrifugal
& Continuous Discharge

BELT CONVEYORS

FLAT BELT CONVEYORS

TROUGHED BELT CONVEYORS

STEEP ANGLE CONVEYORS

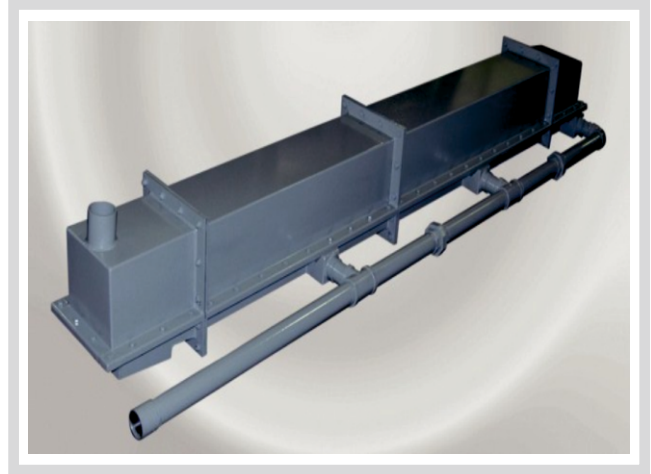

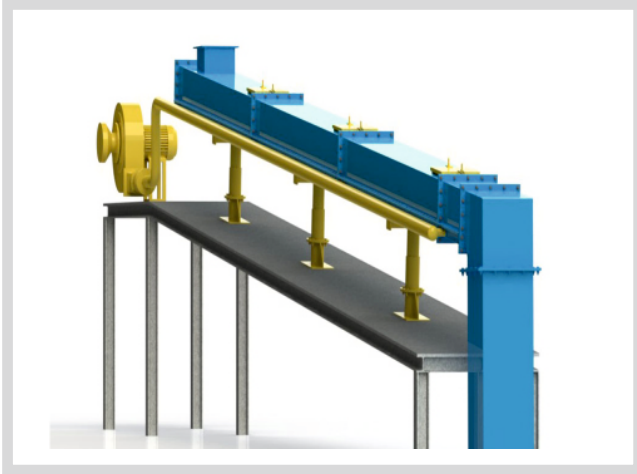

LOADING CONVEYORS

MAXIMIUS belt conveyors are ideal for gentle horizontal/Inclined conveying of granular products such as grain, pellets, powder etc. A Maximius belt conveyor is totally self emptying, and the energy consumption and the wear is minimal.

CLEATED BELT CONVEYORS

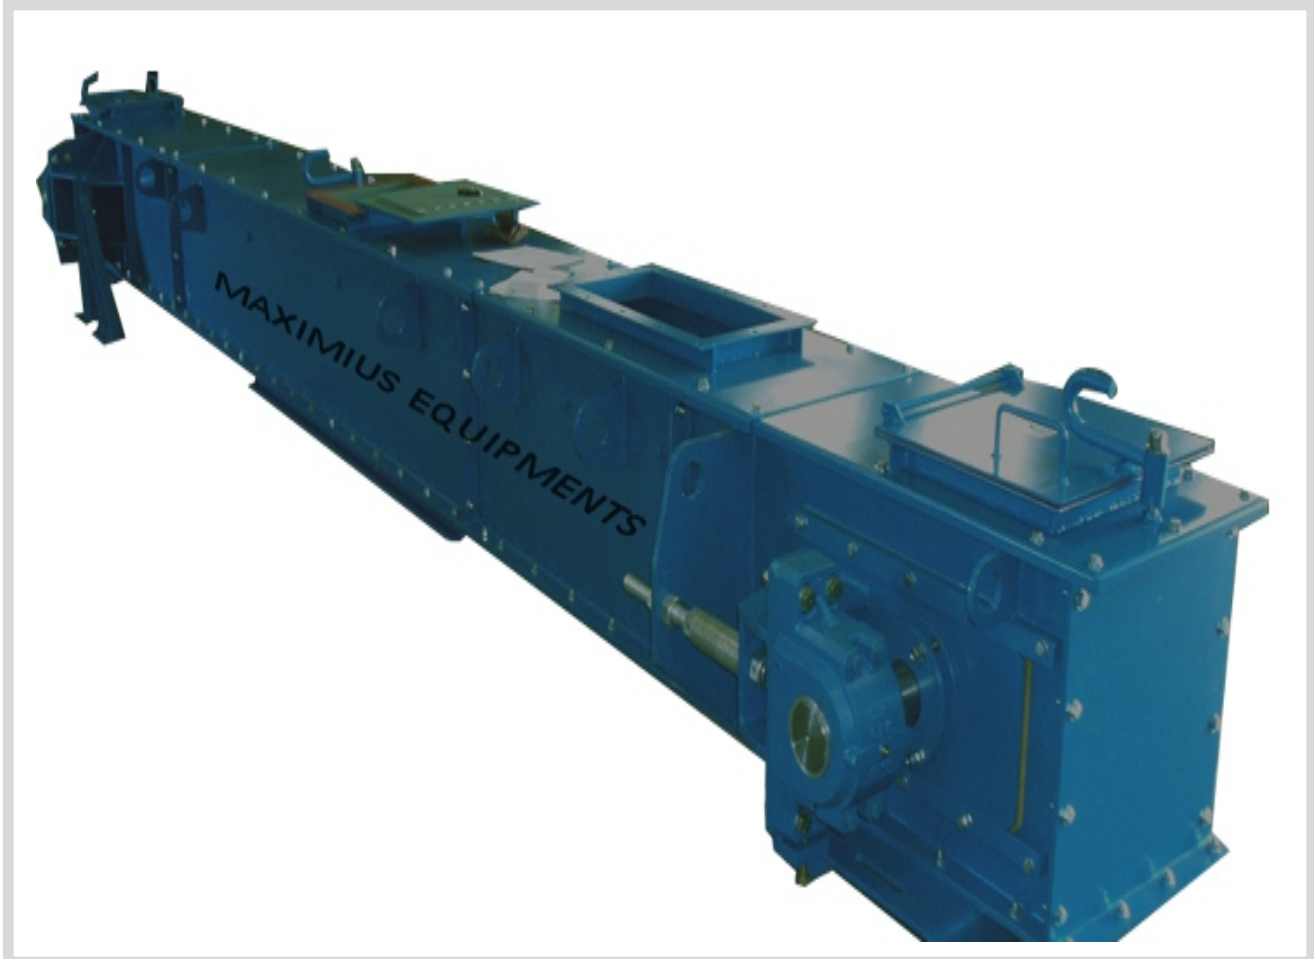

AIR SLIDES

MAXIMIUS Air Slides are used to gravity-convey powders by passing low-pressure air through a porous membrane media and into the bed of the material being handled.

You can handle a large variety of materials with aeration conveyors regardless of their abrasive nature or bulk density. The criteria are particle size, moisture content and temperature. Generally a product should have a particle distribution of 100% through a 20 mesh screen. Moisture content should be below 1% and temperature can't exceed 1200 degrees Fahrenheit [649° C].

DRAG CHAIN CONVEYORS

PNEUMATIC CONVEYING SYSTEMS

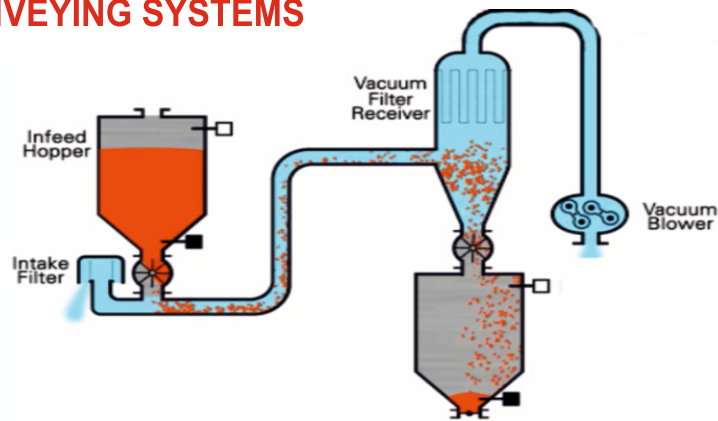

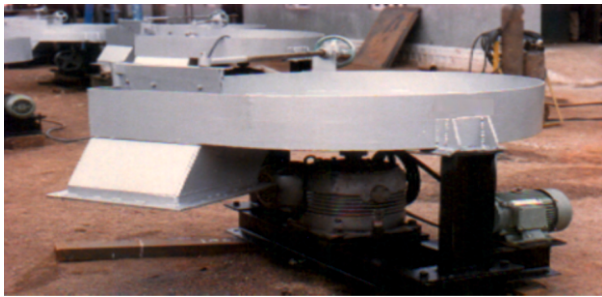

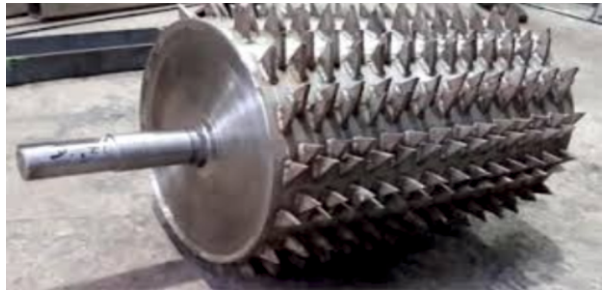

TABLE FEEDER:

LUMP BREAKERS

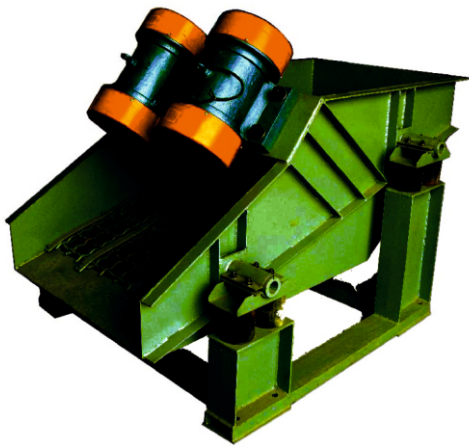

lumps formed due to moisture this is the most efficient and proved equipment in batching plants, lime plants. Moisture up to 4 to 5 % can be handled and sizing will be decided on the size of the lumps and material properties.

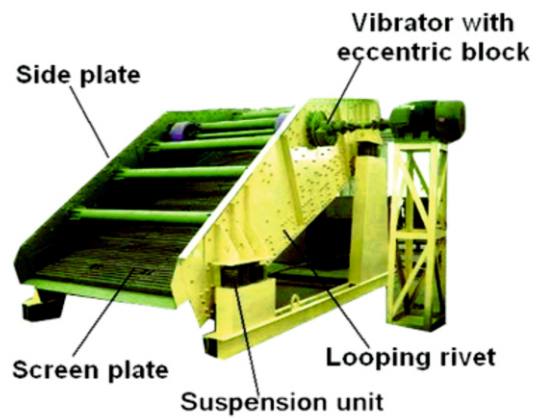

PLOUGHSHARE MIXERS:

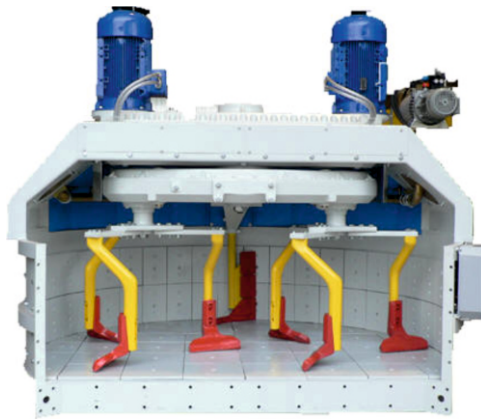

Mixers and blenders for highly homogenous mixing. Can be offered as per requirement and material properties.

VIBRO FEEDER

VIBRATING SCREEN

PLANETARY MIXER

FLOW CONTROL GATES

AUTOMATIC BAG SLITTING MACHINE

ROTARY AIR LOCK VALVES

- Rotary air lock valves with special applications like Blow through Air lock valve, Air purge, with SS 304 Adjustable tips, etc.
- Rotary air lock valves for all kind of material handling like Baggase, Raw meal, cement , lime, sulphur etc..
- Rotary air lock valves for suitable applications with different MOC like MS Fabricated, SS Fabricated, and as well as
- Housing with Cast iron and cast steel.

FLAP VALVES

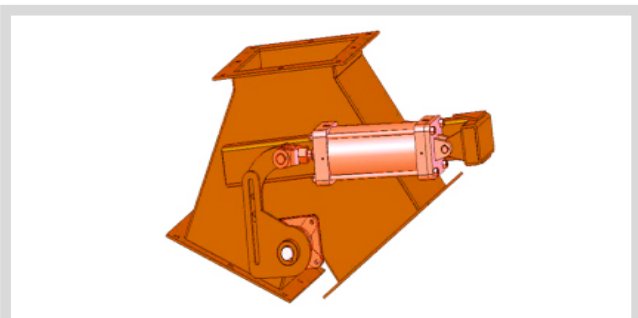

SINGLE STAGE FLAP VALVE

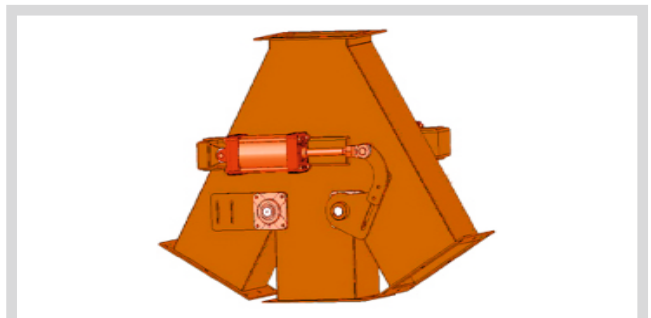

DOUBLE STAGE FLAP VALVE

DIVERTER GATES

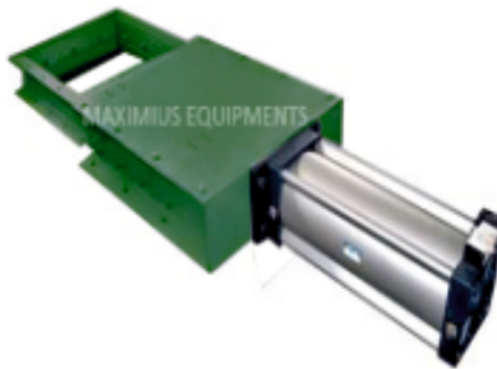

2 WAY DIVERTER GATE

3 WAY DIVERTER GATE

SLIDE GATES

PNEUMATIC SLIDE GATES

MOTORISED SLIDE GATES

MANUAL SLIDE GATES

SWIVEL GATES

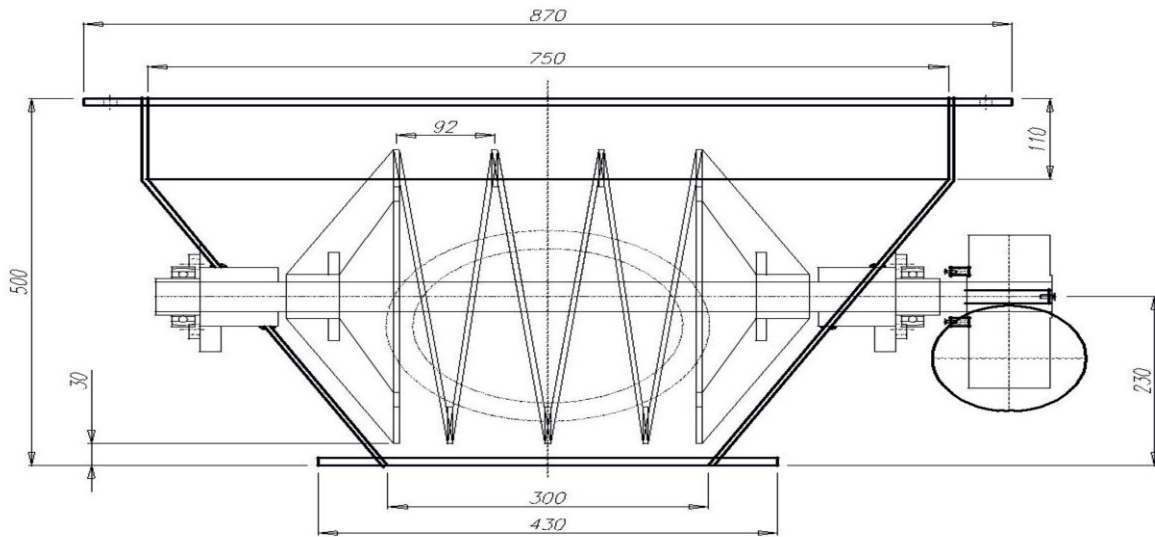

TELESCOPIC CHUTES & LOADING BELLOWS

Telescopic chute is an equipment used for handling bulk fluent materials through gravity flow. Such materials include particulate materials including grains, cement, fertilizers, powdered chemicals, polyvinyl chloride resin, coal, coke, and fly ash. There are three main applications where telescopic can be used effectively.

BRIDGE BREAKING BIN:

A readymade bin which can be directly fitted at the bottom of the bin to avoid bridges and lump formation along with easy fluidization. Available on various sizes depending on the severity the bridging.

ALL GATES & VALVES:

Butterfly valves, ball valves, knife gate valves, of all sizes are available.

- M.O.C: Die-Cast Aluminum Body
- Cast Iron & Polymer Coated Disc
- Dia: 100, 150, 200, 250, 300, 350, 400 to Max.

ERIEZ MAGNETICS

BARREL GRATE MAGNET

**EASTY TO CLEAN
GRATES N HOUSING**

**ELECTRO-MAGNETIC
VIBRATORY FEEDERS**

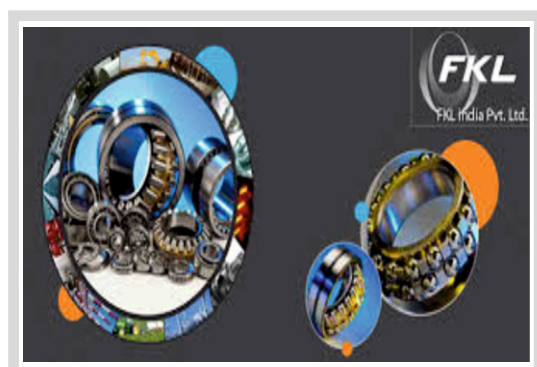

**VIBRATORY
SCREENERS**

GEAR BOXES AND GEAR MOTORS:

OFFICIAL DISTRIBUTOR OF IC BAUER-GMBH.

ALL BEARINGS:

**Official Distributer of
FKL Bearings-SLOVAKIA.**

OTHER PRODUCTS :

DUST COLLECTORS:

OUR ESTEEMED CLIENTS :

Concrete , Cement, Brick, Asbestos, Dry Mortar & other Constructions Related Sector :

GKC Projects	Buildmate Projects (OEM)
Clair Industries Limited (OEM)	Intra Indl. Tech (OEM)
Charminar	Iyantra Engg. (OEM)
Visakha Industries	Aparna Constructions
SEW Infra	Bhavya Cements
Ultra Tech Cements	Panyam Cements
Bharathi Cements	Vijay Aero Blocks
Nagarjuna Cements & NCL Altek	Turbovent Industries Ltd. (OEM)
GVK Projects	MYK Group
Shree Cements Limited	Global Industries Corporation, Abu-dhabi
Hindustan unilever	Invicon Flyash
Saint Gobain	Puzzolona Machinery & Fabricators (OEM)
Vasavadatta Cements	Bevconwayors Ltd. (OEM)
Coastal Projects	Supreme Industries (Coimbathore) (OEM)
JSW Group	Thermal Systems (OEM)
Madhuc on Projects	Thermolite Industries (OEM)
HIL LTD (Formerly Hyderabad Industries Ltd) OEM	Nanolite Infratech (OEM)
Varsha Tech (OEM)	Martoppearl Alloys
MPL Cements	Bricklite Industries (OEM)
